## **LOCAL LAW G OF 2022**

### **TITLE**

A LOCAL LAW AMENDING PART 4 (HISTORIC RESOURCES COMMISSION), PART 13 (PLANNING BOARD OF CITY OF ALBANY), AND PART 35 (BOARD OF ZONING APPEALS) OF CHAPTER 42 (DEPARTMENTS AND COMMISSIONS) OF THE CODE OF THE CITY OF ALBANY IN RELATION TO REDUCING THE SIZE OF THE HISTORIC RESOURCES COMMISSION AND AUTHORIZING THE APPOINTMENT OF ALTERNATE MEMBERS TO THE HISTORIC RESOURCES COMMISSION, CITY PLANNING BOARD, AND BOARD OF ZONING APPEALS

### **GENERAL PURPOSE OF LEGISLATION**

This local law will reduce the number of members serving on the Historic Resources Commission from nine to seven members. This local law will also authorize the appointment of alternate members to the Historic Resources Commission, Planning Board of the City of Albany, and Board of Zoning Appeals to serve in the absence of regular Commission or Board members.

### **NECESSITY FOR LEGISLATION AND CHANGES TO EXISTING LAW:**

This legislation serves two main purposes and an additional ancillary purpose.

First, the legislation reduces the size of the Historic Resources Commission from nine to seven members. It is sometimes a challenge to find enough qualified individuals to serve on the Commission. In fact, at the time that this legislation was drafted, as well as for several months prior, the Commission has had two vacancies. Thus, the size of the reduced Commission, with the passage of this legislation, conforms to the current membership serving on the Commission. Further, in reducing the Commission by two members, this legislation would eliminate the number of archeologists required to serve as members, from two to one archaeologist. The large majority of cases that come before the Commission do not require archaeology as a component of the review. Therefore, the reduced size of the Commission, including the elimination of one of the required archeologist positions, serves a practical purpose and promotes government efficiency by mitigating the challenge of finding enough qualified individuals to serve on the Commission.

Second, the legislation authorizes the appointment of alternate members to the Historic Resources Commission, Planning Board of the City of Albany, and Board of Zoning Appeals to serve in place and stead of members who are unable to attend a meeting due to recusal or absence. The legislation provides that alternate members will not receive compensation for serving on any Commission or Board and requires alternate members to comply with all provisions of law relating to regular member training and continuing education, eligibility, vacancy in office, removal, compatibility of office, and service on other boards. It is sometimes difficult to maintain a quorum on the Historic Resources Commission, City Planning Board, and Board of Zoning Appeals because members are ill, on extended vacation, absent resulting from employment-related travel, or find they have a conflict of interest situation on a specific matter before such Commission or Board. In such instances, official business cannot be conducted, which may delay or impede adherence to required time lines in accordance with the City's development review process. The City wishes to promote and facilitate participation in land use decision-making by the full membership of the Commission and Boards to the maximum extent possible. Moreover, it is noted that several municipalities in New York authorize the appointment of alternate members to their planning, zoning, and/or historic preservation boards, including the Cities of Rochester and Saratoga Springs and the Towns of Colonie, Guilderland, Poughkeepsie, and Waterford. The City of Albany would similarly benefit from the authorization of alternate members to the public boards specified herein. Therefore, the use of alternate members in the instances set out herein will help promote government efficiency by ensuring that public Commission and Board meetings are able to be held, despite conflicts of interest or absences that will likely occur in the normal course of business.

Lastly, the legislation changes gendered references related to the position of Chair to the Historic Resources Commission and City Planning Board from Chairman to Chairperson, where applicable.

**Council Member Anane introduced the following:**

**RESOLUTION NUMBER 56.61.22R**

**A RESOLUTION OF THE COMMON COUNCIL OF THE CITY OF ALBANY  
DECLARING SUPPORT FOR THE NEW YORK STATE CLIMATE ACTION COUNCIL  
SCOPING PLAN**

**WHEREAS**, the Sixth Assessment of the International Panel on Climate Change (IPCC) finds that climate change is causing dangerous and widespread disruption in nature and affecting the lives of billions of people around the world; and

**WHEREAS**, the IPCC Assessment concludes that rapid, deep and sustained reductions in global greenhouse gas emissions (GHG) are necessary, including accelerated action in this critical decade, to limit global warming to within 1.5°C and 2°C in this century; and

**WHEREAS**, New York State recognizes the urgent need to reduce and eliminate GHG emissions in the atmosphere, having passed the 2019 Climate Leadership and Community Protection Act ("Climate Act") committing the State to:

- reduce GHG emissions by 40 percent by 2030 below 1990 levels, and achieve net-zero emissions by 2050;
- meet 70 percent of electricity needs from renewable resources by 2030, and 100 percent of electricity needs from zero-emissions resources by 2040;
- ensure a just and equitable transition that leaves no one behind, and dedicate up to 40 percent of the benefits of clean energy investments to disadvantaged communities; and

**WHEREAS**, the New York State Climate Action Council has approved for public comment a Draft Scoping Plan to meet New York's climate and equity goals; and

**WHEREAS**, the Scoping Plan calls for shifting to energy-efficient electrification in buildings and transportation as the primary solution to replace fossil-fuel combustion in these sectors, which together account for 60 percent of the state's carbon emissions; and

**WHEREAS**, the Scoping Plan calls for a phase-down of emissions from fossil fuel-fired electricity generation, while ensuring support and protections for impacted workers as they transition to clean energy jobs; and

**WHEREAS**, the 2021 Jobs Study by the Just Transition Working Group for the NYS Climate Action Council estimates that meeting New York's climate goals will result in a net gain

of 189,000 jobs across the state by 2030 alone, with a ratio of jobs gained to jobs displaced of 10 to 1; and

**WHEREAS**, the Scoping Plan includes measures that would expand the development of renewable resources and battery storage, encourage “agrivoltaics” or the co-location of agricultural activities with solar and wind, and provide resources to communities to assist with renewable siting and land-use planning; and

**WHEREAS**, the Scoping Plan recognizes the critical role that rural landscapes play, both natural and working lands, in sequestering carbon emissions and enabling the state to achieve net-zero emissions, and the importance of agricultural land preservation, open space protection, support for farmers to improve soil health, and policies that expand afforestation and reforestation and incentivize and assist private landowners in implementing sustainable forest management practices; and

**WHEREAS**, the Integration Analysis for the Scoping Plan finds that meeting emissions reduction goals of the Climate Act is technically feasible and will have the additional and significant benefit of improving public health by eliminating co-pollutants from fossil fuel combustion, resulting in an estimated \$50 to \$120 billion in health-related savings by 2050; and

**WHEREAS**, according to NYSERDA, over half of what New Yorkers currently spend on energy leaves New York, mostly for fossil fuels; and

**WHEREAS**, our communities would be better served by keeping energy spending primarily within the local economy;

**NOW THEREFORE BE IT RESOLVED**, that the Common Council of the City of Albany affirms the critical importance of meeting the emissions and equity goals of the Climate Act, which will help mitigate dangerous warming while delivering the additional benefits of improving public health, economic opportunities, agricultural land open space protection, and quality of life for the people of the City of Albany; and

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany declares its support for prohibiting an expansion of fossil fuel infrastructure, which contradicts the goals of the Climate Act, and for transitioning to efficient electricity-based solutions for buildings and transportation; and

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany supports a planning process for a managed transition of the utility gas system that maintains

affordable, safe, and reliable utility service and protects low- and moderate-income households from an undue burden in the transition; and

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany supports the recommendations of the Scoping Plan for advanced building codes that will improve the energy efficiency of new buildings, creating healthier living and work environments while reducing monthly energy costs; and

**BE IT FURTHER RESOLVED**, Common Council of the City of Albany supports the recommendations of the Scoping Plan to phase in code requirements prohibiting on-site combustion of fossil fuels in new buildings over a period from 2024 to 2027; and

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany calls on the Climate Action Council to include in the Scoping Plan the necessary policies and support to help owners of existing buildings improve energy efficiency and transition to zero-emissions equipment, ensuring cost parity with fossil systems, with incentives and financing assistance as necessary; and,

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany supports Scoping Plan recommendations that make electric vehicles more affordable relative to gas-powered vehicles, and expand fast-charging infrastructure; and,

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany urges the Climate Action Council to include in the Scoping Plan recommendations to expand assistance for all-electric upstate municipal transit systems; and,

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany further urges the New York State Department of Environmental Conservation and NYSERDA to immediately launch a sustained statewide public education and information campaign on the benefits of a clean energy economy and climate-friendly choices by consumers of heating and cooling systems, transportation, and products and appliances; and

**BE IT FINALLY RESOLVED**, that the Common Council of the City of Albany shall forward copies of this resolution to the Commissioner of the NYS Department of Environmental Conservation, the President of NYSERDA, the Chair of the NYS Public Service Commission, the NYS Climate Action Council, and Members of the State Senate and Assembly representing the City of Albany.

Declaring the Council's support of the New York State Climate Action Council Scoping Plan

**Council Member Anane introduced the following:**

**RESOLUTION NUMBER 57.61.22R**

**A RESOLUTION OF THE COMMON COUNCIL OF THE CITY OF ALBANY EXPRESSING ITS SUPPORT OF PHASING OUT FOSSIL FUEL COMBUSTION AND ELECTRIFYING BUILDINGS IN NEW YORK STATE**

**WHEREAS**, New York passed the nation-leading Climate Leadership and Community Protection Act in 2019, committing the state to reduce greenhouse gas emissions by 40 percent below 1990 levels by 2030 and to achieve net-zero emissions by 2050; and

**WHEREAS**, New York has taken bold initiative and national leadership by banning hydraulic fracturing aka ‘fracking’ for gas based on the potential negative impacts to the environment, water, air, land and public health; and

**WHEREAS**, New York is still one of the top consumers of fracked gas and the largest consumer of heating oil in the nation, according to the U.S. Energy Information Administration; and

**WHEREAS**, fossil fuel combustion in our homes and buildings for heating, hot water, and appliances contributes roughly one-quarter of the state’s greenhouse gas emissions; and

**WHEREAS**, combustion of fossil fuels in homes and buildings in New York can contribute to poor indoor and outdoor air quality, and is linked to higher childhood asthma rates and hundreds of premature deaths annually; and

**WHEREAS**, New York can address greenhouse gas emissions and create healthier living and work environments by improving energy efficiency and retrofitting homes and buildings with geothermal and air source heat pumps, hot water heat pumps and electric/induction stoves; and

**WHEREAS**, an analysis for the New York State Climate Action Council has estimated that between one and two million homes must be electrified with heat pumps by the end of the decade to achieve New York's near-term climate goals; and

**WHEREAS**, New York can create hundreds of thousands of jobs through energy efficiency and weatherization improvements and heat pump installations; and

**WHEREAS**, New York's utilities continue to expand gas distribution infrastructure at ratepayers' expense, increasing both utility bills and greenhouse gas emissions; and

**WHEREAS**, utilities continue to spend hundreds of millions of dollars annually to repair and replace existing leaky and antiquated gas pipelines without cost-effective alternatives; and

**WHEREAS**, over half of total spending on energy in New York leaves the state, primarily to pay for fossil fuels; and

**WHEREAS**, New York's climate law commits the state to an equitable clean energy transition that leaves no one behind, yet adequate state funding mechanisms do not exist to improve and electrify affordable housing; and

**WHEREAS**, it is imperative that New York State prioritize a managed transition away from fossil fuels in homes and buildings in order to adequately address the climate crisis and protect public health;

**NOW THEREFORE, BE IT RESOLVED**, that the Common Council of the City of Albany calls on Governor Kathy Hochul and State Senator Neil Breslin, Assembly Members Pat Fahey and John McDonald, and the other members of the state legislature to adopt the critical policies and funding mechanisms needed to phase out fossil fuels in homes and buildings in New York State; and

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany calls on New York State set a target of two million new and existing energy-efficient, all-electric homes by 2030, at least half of which will be affordable housing; and

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany calls on New York State to end fossil fuel expansion in the building sector, and to establish building standards and utility regulations that support the energy efficiency and electrification of buildings; and

**BE IT FURTHER RESOLVED**, that the Common Council of the City of Albany calls on New York State to create a green affordable housing fund, consistent with the equity goals of New York's climate law; and

**BE IT FINALLY RESOLVED**, that the Common Council of the City of Albany calls on New York State to expand educational, training, and apprenticeship opportunities to develop the workforce for high-quality, high-paying career jobs in energy efficiency and electrification.
