Introduction

The Equity Agenda was passed on October 21, 2019. Per Albany City Code §183-3(D) (Equity Agenda), the City of Albany's Commission on Human Rights (Commission), in partnership with the City of Albany's Department of Administrative Services (Administrative Services), will track outcomes of the Equity Agenda goals over time and publish an annual report on the City's progress towards achieving equity. In this report, the City will measure the collective actions and policies in the following four equity areas: 1) built environment enhancements; 2) violence prevention; 3) workforce training and employment; and 4) education. This is the City's third report submitted to the Albany Common Council on the Equity Agenda and its progress towards achieving equity. Per the statute, this report is to be delivered to the Albany Common Council on an annual basis, no later than September 21.

The Commission on Human Rights received this report on 09/26/2022 and provided their responses on 10/14/2022. Administrative Services submitted this report to the Albany Common Council on10/17/2022. Per Albany City Code, the Commission on Human Rights is responsible for reviewing, enhancing, and providing recommendations on the City of Albany's Equity Agenda. In this submission, the Commission on Human Rights has reviewed and analyzed data that was provided by City departments and included recommendations to improve equity in the City of Albany. The overarching goal of the Equity Agenda Report is to review all the City of Albany's processes through an equity lens.

Methodology

Section 183-2 of the Equity Agenda requires City departments to collect data on built environment enhancements and to submit this data to the Common Council. Section 183-3(D) mandates the City, in partnership with the Commission, to measure progress in the four aforementioned equity areas and to submit its findings to the Common Council. In order for Administrative Services and the Commission to properly measure progress in the four equity areas mandated by the Equity Agenda, the data that must be submitted to the Common Council should be received and analyzed by the Commission.

As Administrative Services is the steward of the City's data, this report was initially drafted by Administrative Services. Administrative Services requested data from relevant City departments and generated this report as both a means of collecting and assessing the data necessary to measure progress towards achieving equity and also as a means of submitting the data to the Common Council.

After this report was drafted, it was sent to the Commission on 09/26/2022. The Commission's Equity Agenda Report ad-hoc subcommittee reviewed the report, analyzed the data with an equity lens, and made recommendations for future policy decisions.

Redlining and Equity in the City of Albany

Equity is the guarantee of fair treatment, advancement, opportunity, and access for all individuals. Equity strives to identify and eliminate barriers that have prevented the full participation of some groups, while also ensuring that all community members have access to community conditions and opportunities needed to reach their full potential and experience optimal well-being and quality of life.[1] Like many other municipalities across the nation, the City of Albany has its own history of displacement, exclusion, and segregation which has prevented people of color from obtaining equal opportunities to build wealth and financial well-being.[2] Much of this exclusion and segregation was done through redlining in the 1930s. Redlining is the practice of identifying certain neighborhoods or areas as a high credit risk.[3] Redlining shaped the demographic and wealth patterns of American communities, with three out of four neighborhoods 'redlined' on government maps. The City of Albany was no exception. In 1938, the Federal Housing Administration, local bankers, and realtors released the final version of Albany's redlined map.[4] Per the *Times Union*:

> *"When Albany's map was produced, West Hill, Arbor Hill and the South End were the only neighborhoods to be redlined. All three were at the time predominantly white, but poor and made up of European immigrants. After … others began fleeing the Jim Crow South, the skin color of most residents in those zones changed. But the practices and policies of banks, landlords, various layers of governments and other powerful interests largely controlled by white people remained the same — and blocked Black residents from growing generational wealth."* [5]

Today, the effects of redlining in Albany remain and racial inequities still follow the contours of the 1938 map. In the City, 69 percent of white residents own homes compared to the 20 percent of black residents that own homes. The difference in the median household income between those who live in predominately black and white neighborhoods can be as high as $60,000. The overall poverty rate is 22 percent compared to the national average of 10.5 percent. A 2019 study by Brandeis University found that Arbor Hill is one of the lowest opportunity neighborhoods in the nation for children; this is based on graduation rates, health insurance coverage, income, and other factors.[6]

[6] *Id.*

Historically redlined neighborhoods in Albany continue to experience the consequences of decades of divestment, with disproportionate concentrations of vacant buildings, substandard housing conditions, low economic mobility, and few economic incentives for property maintenance. The neighborhoods of Arbor Hill, North Albany, Mansion, Pastures, South End, and West Hill are predominantly non-white neighborhoods that were formerly redlined by financial institutions and local, state, and federal governments. These neighborhoods are primarily black – though they have growing populations of immigrants, refugees, and other communities of color – and have high rates of poverty.

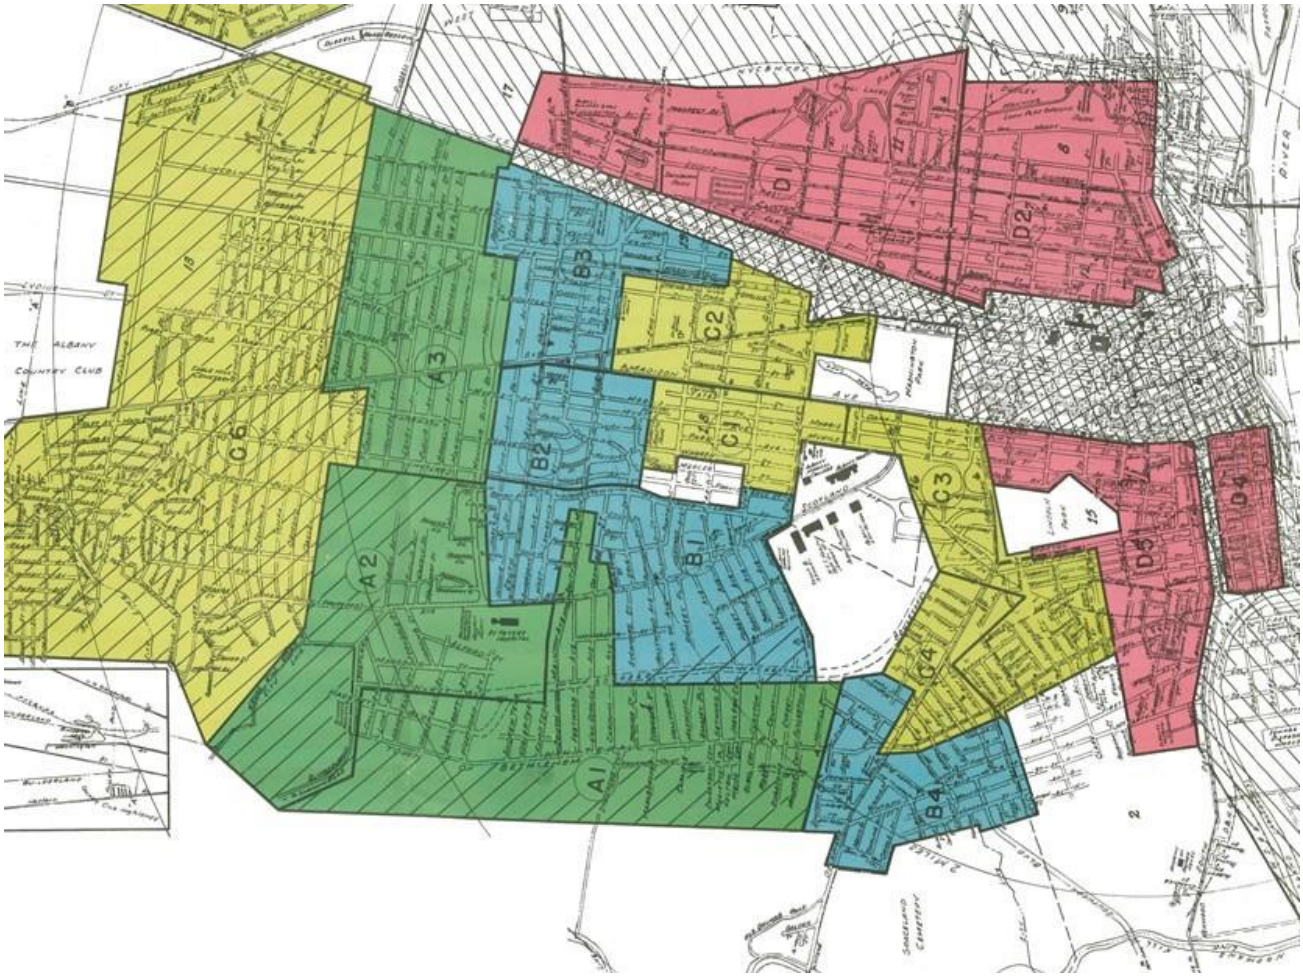

This report disaggregates data by ward. The City is divided into 15 wards – or legislative districts. These current ward boundaries were adopted on February 21, 2013 and were adjusted to best represent protected groups and communities of interest per the 2010 U.S. Decennial Census.[7] Many wards still reflect the previously drawn red lines of neighborhoods in Albany. Please note that the Common Council has appointed a Reapportionment Commission to evaluate the existing ward boundaries for equity and representation in relation to the total population based on the 2020 U.S. Decennial Census. The Reapportionment Commission has been holding public hearings from July through September 2022 to evaluate and propose new ward boundaries.

City of Albany Ward Boundaries

City of Albany Home Owner's Loan Corporation (HOLC) Redlining Map (1938)

Built Environment Enhancements

Street Conditions

The City rates streets on a scale of one to ten, with one being low quality and ten being high quality. A rating of three or below indicates the need for repair or replacement. The Equity Agenda mandates the City to seek and achieve parity among all wards by ensuring that streets exceed a rating of three.

Street Condition Ratings by City Ward

Per Section 183-2(A)(1) of the Equity Agenda, the City's Department of General Services (DGS) and Division of Engineering (Engineering) are to provide the Common Council with a ward map identifying the rating of each street at the time that it submits its annual proposed list of street and sidewalk reconstructions or enhancements. The map must break down street conditions by percentage within each ward. Wards with a disproportionate percentage of streets rated three or lower will be prioritized. DGS submitted its annual proposed list of street and sidewalk reconstructions or enhancements to the Common Council on 12/31/2021. This proposal was accompanied by the mandated ward map identifying the rating of each street. The following charts provide information related to the roadway conditions of each of the City's 15 wards in 2021 and the projected roadway conditions for each ward in 2022 following the City's proposed street repair and replacement projects.

2021 Roadway Condition By Ward

Based on 2021 CDTC Windshield Survey Street Scoring

For 2021: Street segments were revised to be scored on block-to-block intervals and were updated with accurate lane milage based on actual number of lanes.

Street Condition Ratings – Maps by City Ward

See **Appendix 1 – Street Condition Maps** for the ward map of street condition ratings throughout the City.

Requests for Enhancements of City Streets

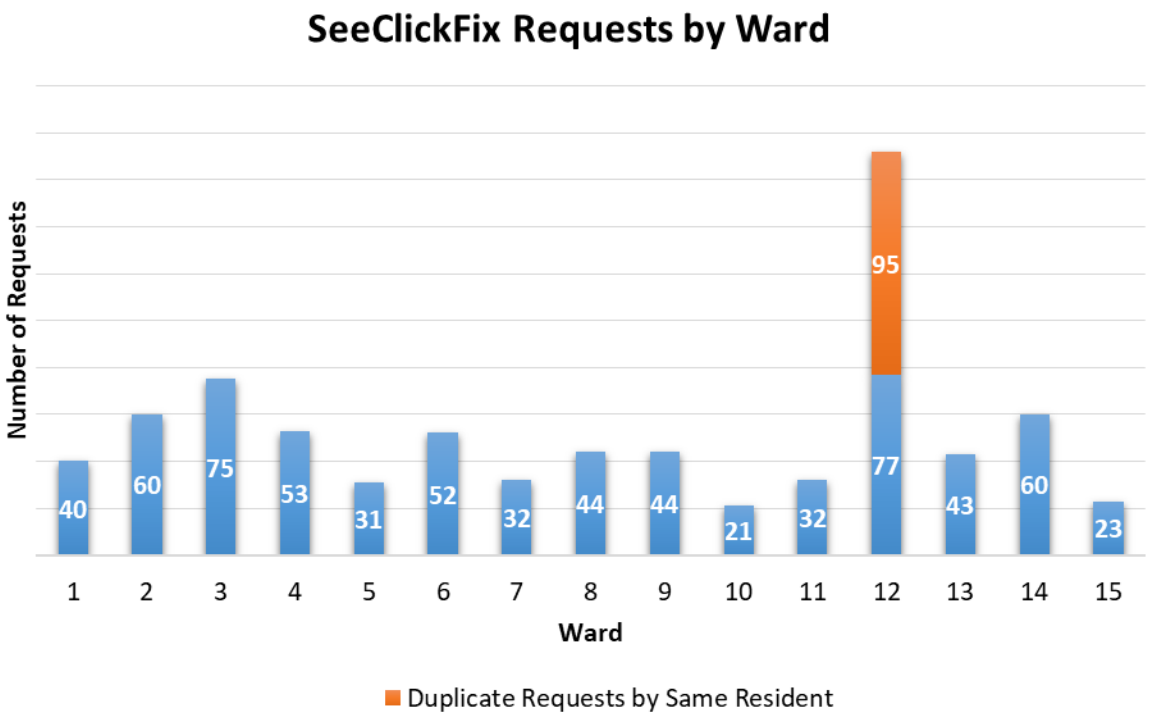

Section 183-2(A)(1) of the Equity Agenda requires DGS to keep an electronic record of requests made for the enhancement of existing streets and sidewalks and the installment of new sidewalks and walking paths. Such requests are made through the City's SeeClickFix reporting platform and these requests must be included in DGS's report to the Common Council. See **Appendix 2 - Sidewalk and Street Repair Requests** and below for SeeClickFix requests for street and sidewalk repair and/or enhancements.

SeeClickFix Requests by Category

SeeClickFix Requests by Ward

Ward	Number of Requests	Percentage of Total Requests	Average Days To Close
1	40	5%	57
2	60	8%	77
3	75	10%	89
4	53	7%	65
5	31	4%	95

13	43	5%	91
14	60	8%	87
15	23	3%	88
Total	**782**	**100%**	**83**

Parks Equity

Equity Agenda §183-2(A)(2) mandates investment in parks be based on equity, which is measured by using data retrieved from a City-wide parks asset inventory. The Department of Recreation (Recreation), DGS, and the Albany Water Department (AWD) are to develop a City-wide asset inventory that includes at a minimum the location and name of each City-owned park, the size of each park, the recreation equipment (including splash pads), the age of the equipment, the designed age range for children using the equipment, ADA access to such equipment, the number and condition of any court services, the existence and condition of any restroom facilities and water fountains, the existence and condition of benches, picnic tables, chess tables, and other such surfaces, and the overall condition of the grounds (including hardscape) of the park.

See **Appendix 3 – Park Conditions**, for the Parks Inventory. The first tab, “Main”, lists relevant information on every park. The second tab, “Data Sheet Key” outlines how park assets are scored. The remainder of the spreadsheet has a tab for each park, with a listing of all assets in each park and their current condition.

Streetlights

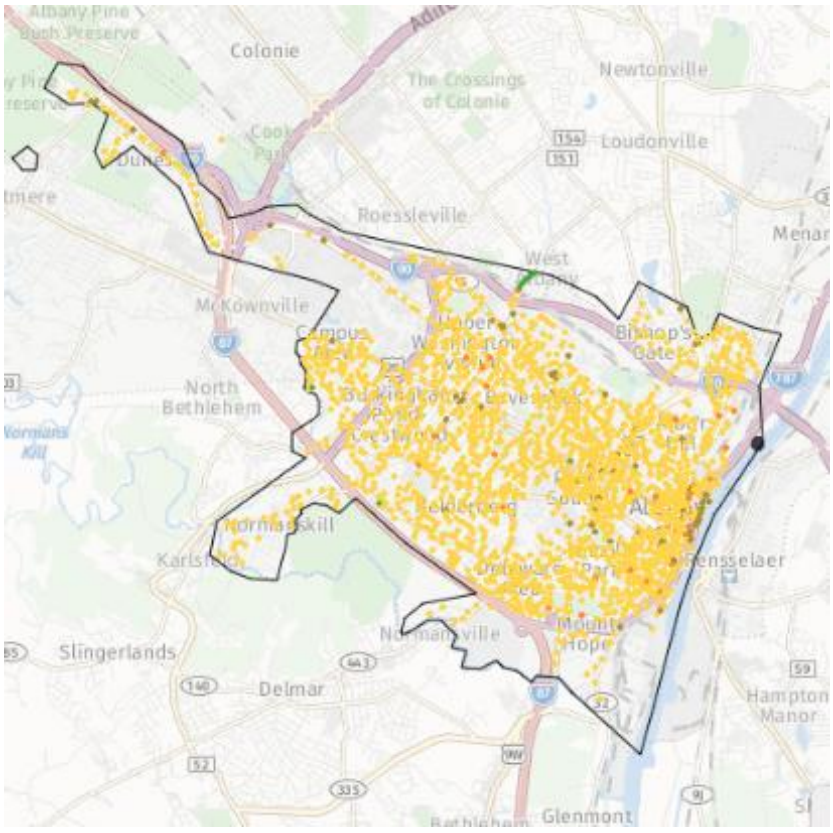

The Equity Agenda legislation requires “an annual assessment of lighting to ensure streets, alleyways and parks are adequately illuminated.” This requirement is now met on an ongoing basis. The City of Albany has a streetlight asset management system — Signify’s “Interact City” platform — which monitors the city’s streetlight network remotely. Section 2(a) of the City’s Operations, Maintenance, and Capital Improvement contract with the New York Power Authority requires NYPA to "continuously monitor [Interact] for maintenance issues.” City staff are also able to monitor streetlight outages to ensure reasonable turnaround on repairs.

Of approximately 10,800 streetlights owned by the City, ~10,600 have been converted to LEDs. The remaining areas to be converted and/or installed include:

- 108 lights with missing poles to be converted once new poles have been secured for installation.
- 56 lights to be converted in the Corning Preserve once the new poles arrive.
- 40 lights to be converted on Broadway once the new poles arrive.
- 35 lights to be installed in three underpasses, which are currently in process:
  - Under I-787 at South Pearl Street
  - Under I-787 at Broadway
  - Under Henry Johnson Boulevard
- 16 lights on the Washington Park bridge
- 15 mini flood lights on Everett Road
- 15 floodlights in Swinburne Park
- 3 lights in the Spring Street alley

As of this writing, there are 151 streetlights with "communication faults." We are currently finding that approximately 25% of these communication-fault locations have actual outages, while the rest simply need a node re-set. Current estimates by our operations and maintenance contractor are that approximately 1.5% of Albany's streetlights require repair at any given moment. Since our O&M contract went into effect in Q1 of 2022, 412 repairs have been undertaken over 19 weeks, amounting to approximately 21 repairs per week.

Below is a screenshot of the "Interact City" platform used to monitor streetlights on an ongoing basis. Staff at the Office of Sustainability can provide a demonstration session of this platform on request. To report any issues with streetlights, or for any questions, contact streetlights@albanyny.gov.

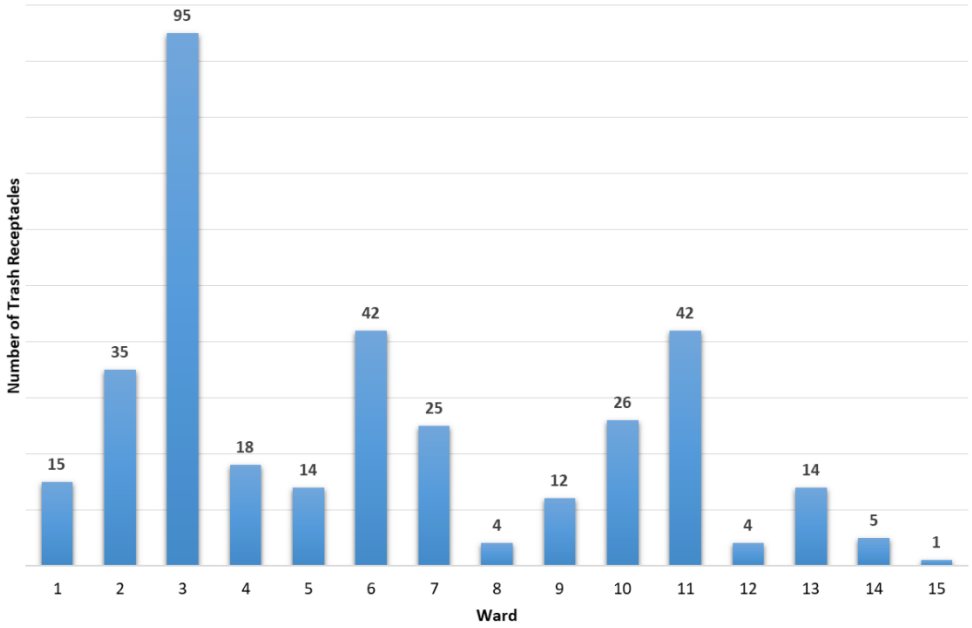

Trash Receptacles

DGS places trash receptacles around the City in an effort to reduce the amount of litter in public spaces. Trash receptacles are placed on main thoroughfares that see high pedestrian traffic and/or where there are businesses that sell items that often end up as litter. Waste barrels may also be placed in locations where litter in public areas is a habitual problem, in which a trash receptacle would improve the litter problem. Equity Agenda §183-2(A)(4) mandates DGS to assess if trash receptacles are evenly distributed. Trash receptacles are scheduled to be collected every day. In the event of not having adequate staffing to accomplish that task, high foot-traffic areas such as Downtown, Central Avenue, and North and South Pearl Streets are prioritized. The map and charts below show the location of trash receptacles within the City.

Map of City of Albany Trash Receptacles

Number of Trash Receptacles by Ward

Capital Projects Completed 2018-2021

Section § 183-2 (A)(5) of the Equity Agenda calls for an annual report on completed capital projects by ward within a four year period. See **Appendix 4 – Capital Projects** for this report, which is broken down by Department.

Commission on Human Rights Findings and Recommendations (Built Environment Enhancements)

Violence Prevention

Violence Prevention Task Force

Section § 183-2 B of the Equity Agenda calls for the creation of a Violence Prevention Task Force. The Violence Prevention Task Force was established by the Albany Common Council's Public Safety Committee. The Violence Prevention Task Force is responsible for convening stakeholders every fall to develop action items in preparation for the upcoming summer in anticipation of an uptick in violence. This Task Force is composed of members of the Albany Common Council's Public Safety Committee, community members from wards disproportionately impacted by violence, at least one youth representative, representatives from the Albany Police Department, the Mayor's office, the Albany City School District, clergy, and members from violence prevention-related organizations.

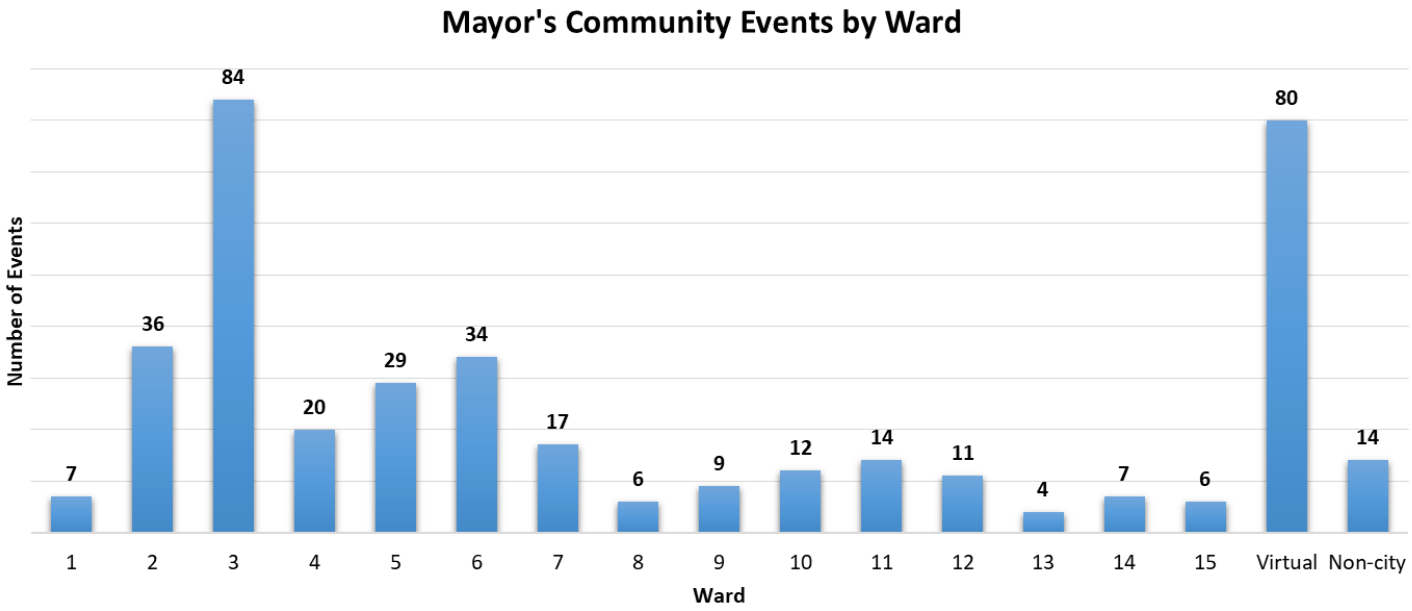

The task force normally meets on the First (1st) and Third (3rd) Thursday of the month at 5:30 p.m. The meetings of the Violence Prevention Task Force are live streamed and recorded, and can be found on their Facebook Page: Violence Prevention Task Force Facebook Page. For more information, visit the website: Violence Prevention Task Force Website, or contact them through e-mail: Violence Prevention Task Force E-Mail.

Commission on Human Rights Findings and Recommendations (Violence Prevention)

Community Programming

Mayor's Office Community Events by Ward

The following chart shows community events the Mayor attended in 2021 by ward. Many of these events were held virtually and at City Hall (Ward 3). For a complete listing of the date, topic, ward, and street address of each event, see **Appendix 5 – Mayor's Office Community Outreach**.

Community Development Block Grant (CDBG) & Coronavirus Aid, Relief, and Economic Security Act (CARES) Funding

Section § 183-2 C of the Equity Agenda calls on the Albany Community Development Agency to take special care to ensure CDBG funds be prioritized for organizations that serve communities historically disadvantaged due to racism and discrimination, including African Americans, Latinos and Native Americans.

CDBG funding is provided to not for profit organizations in the City of Albany that provide a service to residents of Albany at or below 80% of the Area Median Income. ACDA does have target neighborhoods, Arbor Hill, North Albany, West Hill/West End, and the South End – however, it doesn't limit programming to these neighborhoods. Any resident of Albany that meets the income requirement is eligible for HUD funding.

CARES Act Funding

In response to COVID-19, the U.S. Department of Housing and Urban Development allocated funds to the City to be used to prevent, prepare for, and respond to the pandemic. This allocation was authorized by the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") to respond to the growing effects of this historic public health crisis. Applications were accepted on a rolling basis until funds for a particular priority were expended.

Workforce Training & Employment

Workforce Development

Equity Agenda §183-3(D) mandates the City and Commission to measure and track outcomes related to workforce training and employment in its annual report. The following described grants and programs administered by the City's Department of Youth and Workforce Services (DYWS). Please note that DYWS has an obligation to service individuals who do not reside in the City of Albany.

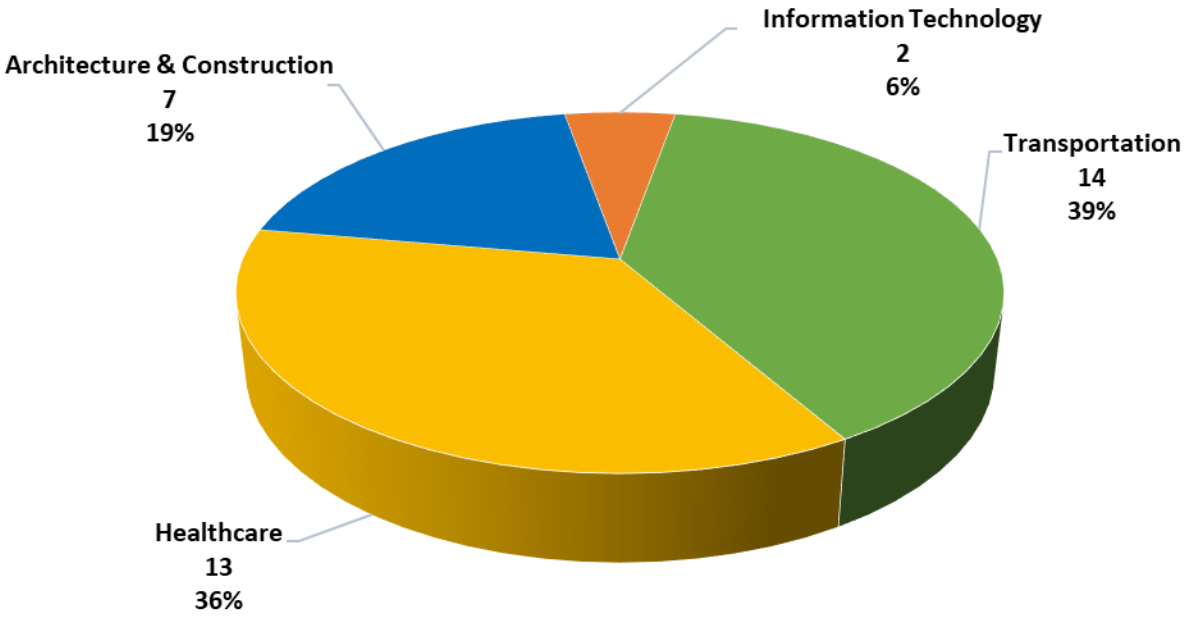

Workforce Innovation and Opportunity Act Grant (WIOA)

Workforce Innovation and Opportunity Act training funds - also referred to as Individual Training Accounts - service eligible participants who are seeking job skills enhancement. Participants receive training services from eligible training providers that they select and are expected to take an active role in managing their employment future by utilizing resources and information such as skills assessments, labor market conditions/trends, and training providers' performance. Performance is measured based on program completion, credential obtainment, and securing employment. The median placement wage is $24.01 and the credential attainment rate is 47 percent (17 participants). Below are charts and graphs which depict specifics of the program.

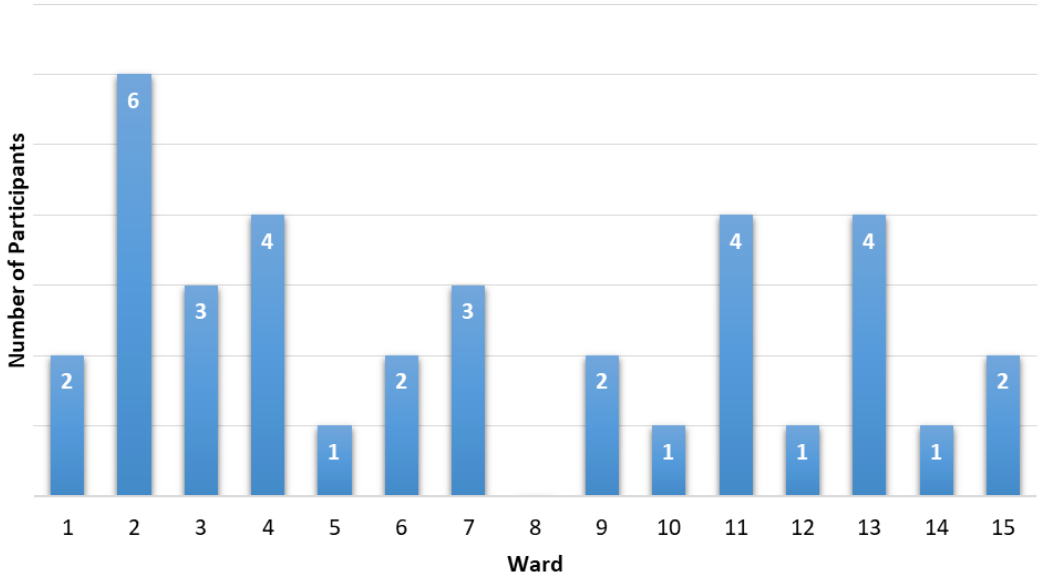

Name of Employing Entity	Job Vacancy Filled
Adams Heating & Plumbing	HVAC/R Technician
Right At Home	Personal Care Assistant
Albany Medical Center	Personal Care Assistant
Schneider National Carrier	Tractor Trailer Driver
Capital District Medical Transportation	Medical Transport Driver
Environmental Services Systems LLC	Hazmat Removal Worker

Cost	
WIOA Adult	$ 63,842.66
WIOA Dislocated Worker	$ 50,796.50
Trade & Economic Transition Dislocated Worker Grant	$ 1,550.00
Total	**$ 116,189.16**

WIOA Represented Industries

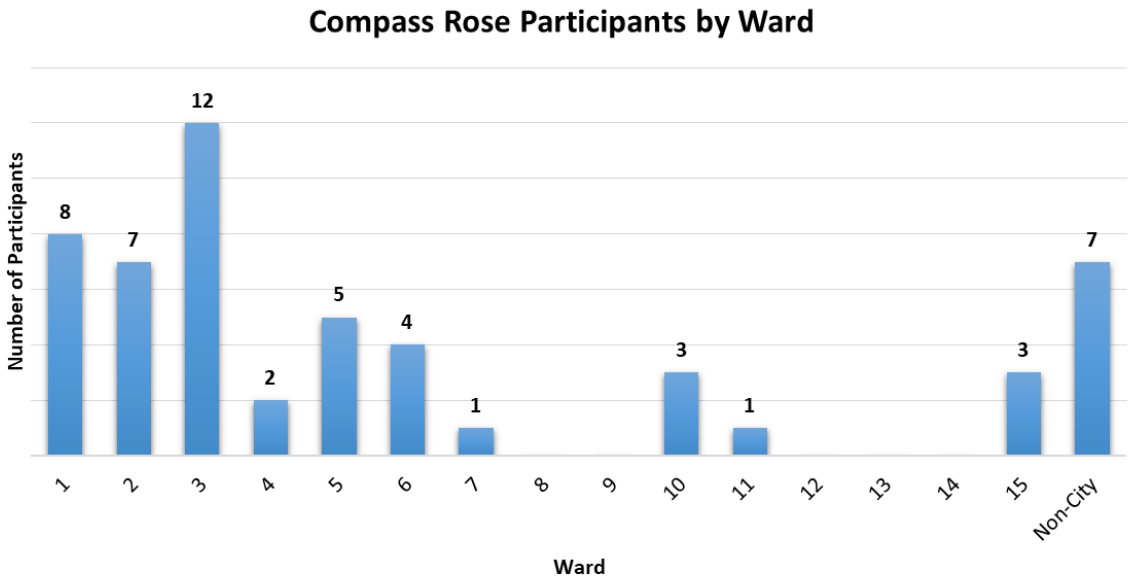

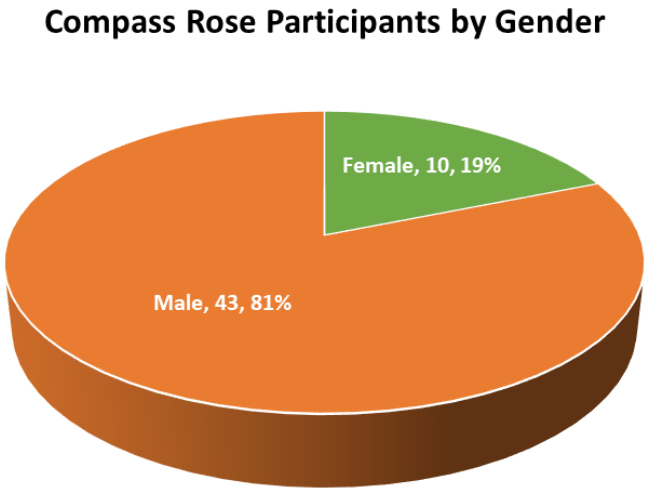

WIOA Participants by Ward

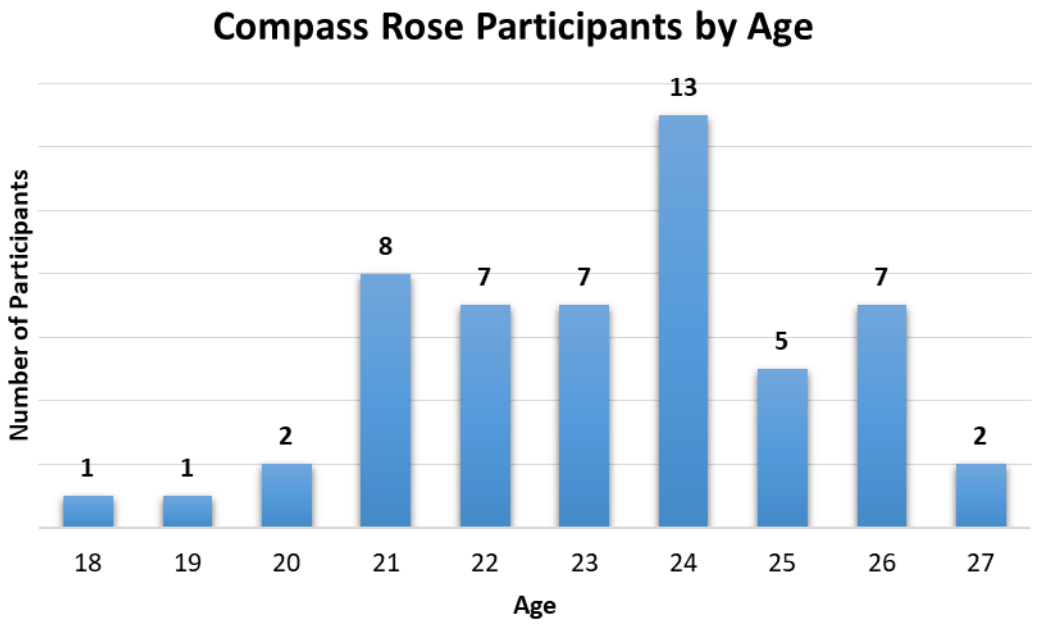

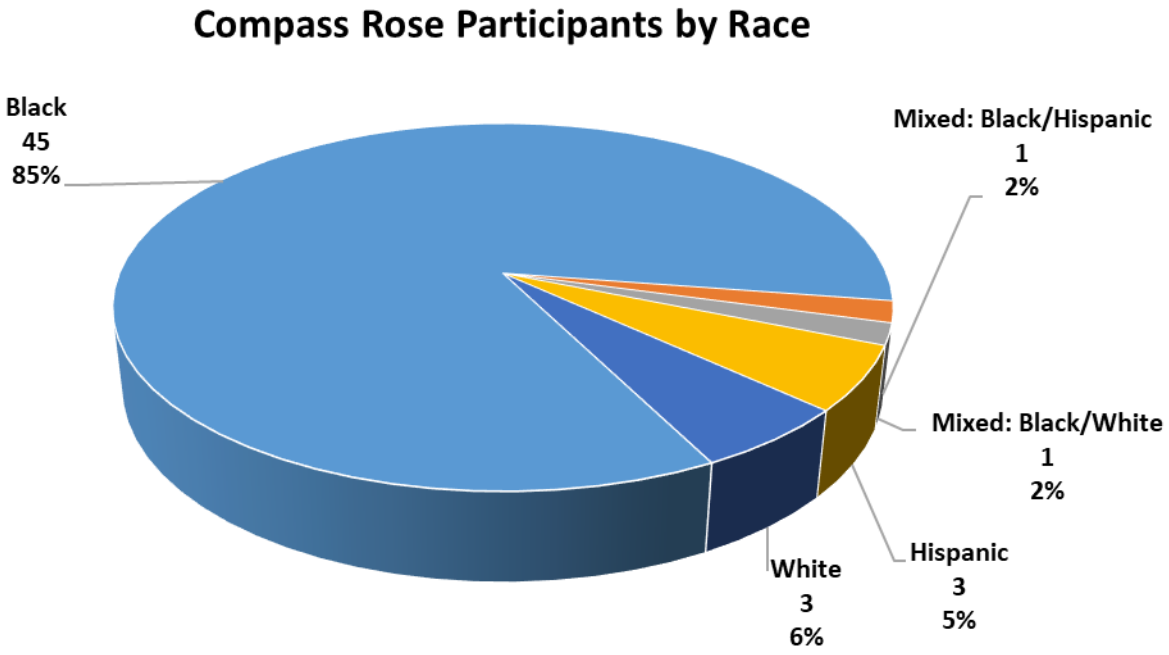

Compass Rose Re-Entry Grant Program

The Compass Rose Re-Entry Program helps place justice-involved youth into sustainable employment through community partnership, education, specialized training, and workforce development. The program focuses on young adults who are out of school, involved in the criminal justice system, and/or are returning to the community from a period of incarceration. Re-entry services concentrate primarily on those individuals who originate from and/or are returning to the City of Albany. The tables and charts below show how many participants were serviced in each ward, participant gender, age, race, and details related to the specialized training received. There were 53 participants in the Compass Rose Re-Entry Program in 2021. The recidivism rate was 11 percent (6 participants).

My Brother's and Sister's Keeper (MBSK)

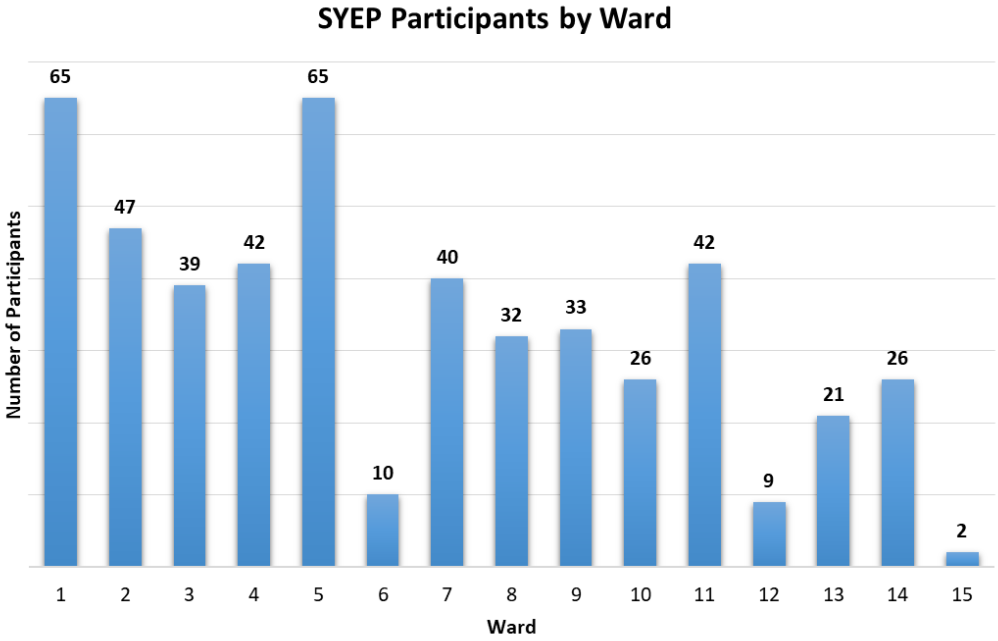

On February 27, 2014, President Obama launched the My Brother's Keeper initiative with the belief that focusing on critical challenges, risk factors, and opportunities for young boys and men of color at key life stages can improve their long-term outcomes and ability to contribute to society. The City of Albany accepted President Obama's challenge and expanded it to include young girls and young women, recognizing that they too need to improve their long-term outcomes and ability to contribute to society. The local chapter of MBSK's goal is to reduce levels of violence among young people and to improve access to education and employment. Primary indicators of performance are evaluated during the program follow-up period. Successful outcomes include unsubsidized employment, secondary education, post-secondary educations, and occupational skills training. The following charts show how many youth were serviced by ward. The cost of this program was $16,640 which included weekly stipends awarded on attendance and CDTA bus passes.

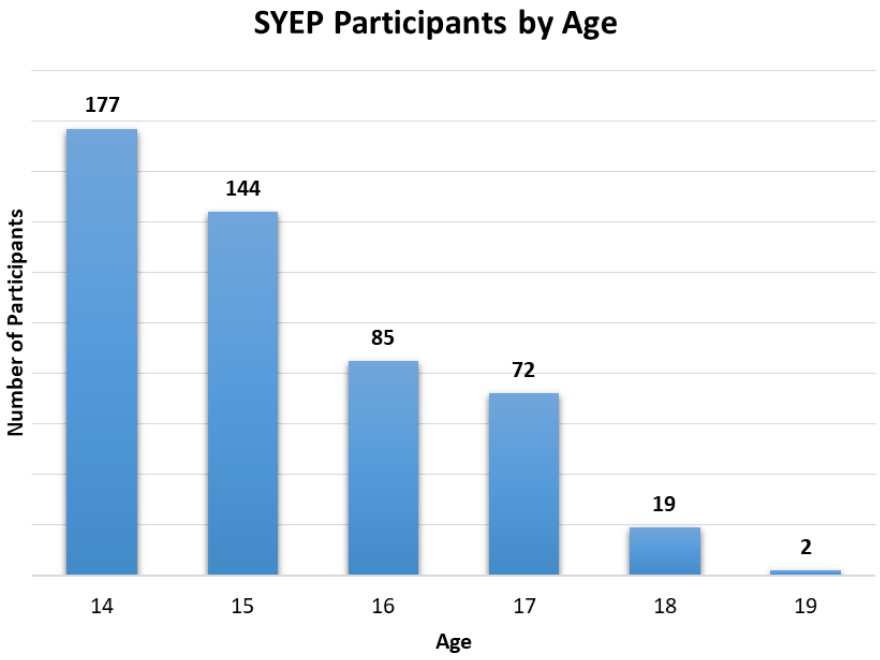

Summer Youth Employment Program (SYEP)

The Summer Youth Employment Program is designed to provide young City of Albany residents who are between the ages of 14 and 19 with summer work experience. The goals of the program are to introduce and prepare youth for the world of work, help youth identify career interests and attain skills and good work habits, and to provide income to youth, which may supplement family income. The two charts below show the number of youth that were served in 2021 by ward. There were 499 youth that participated in the Summer Youth Employment Program overall. Unfortunately, the City of Albany's Department of Youth and Workforce Services does not have an articulation agreement to access student academic records, so information such as graduation rates of SYEP participants cannot be provided in this report. The program will continue to connect with local school administrators with the hopes of establishing a relationship to better service students.

City of Albany Employment

Map of City of Albany Job and Civil Service Exam Applicants by Ward – City Residents Only

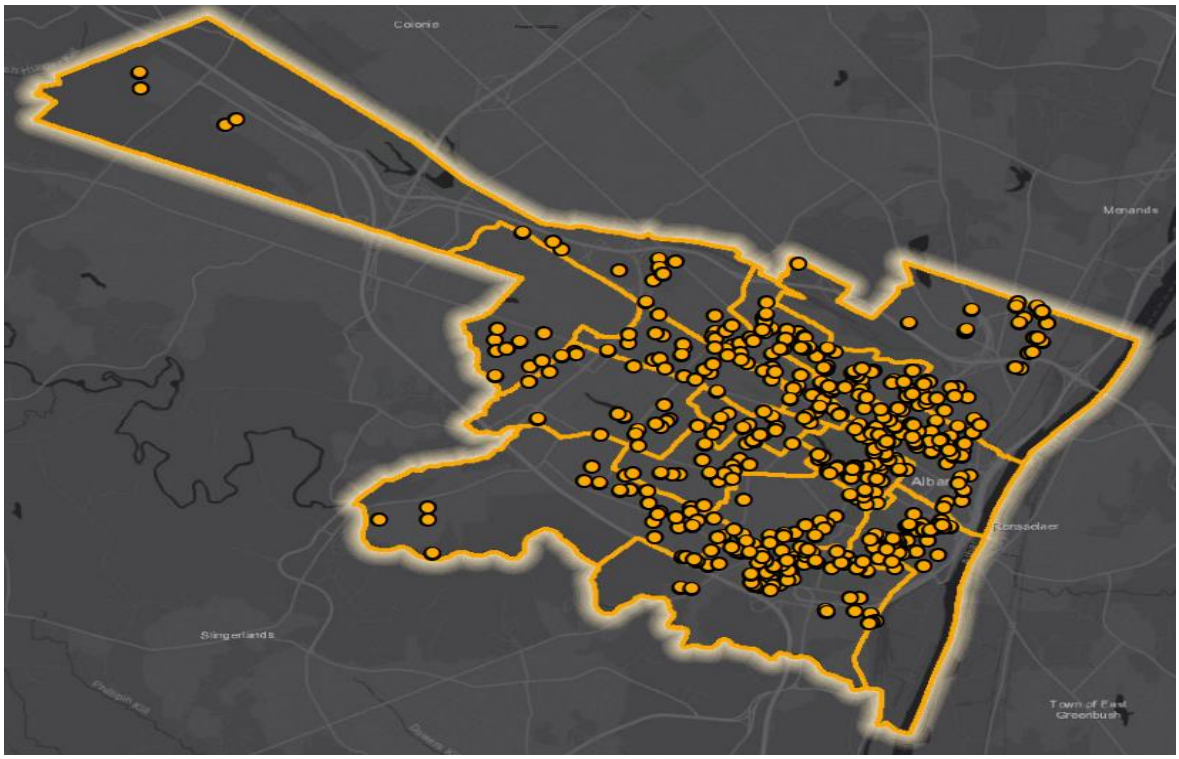

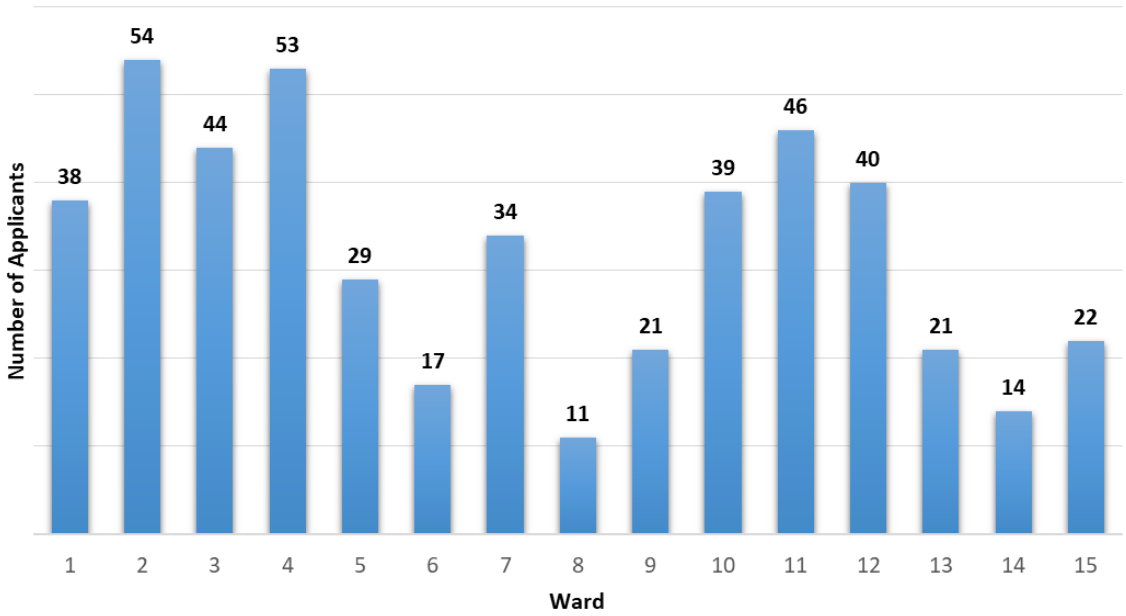

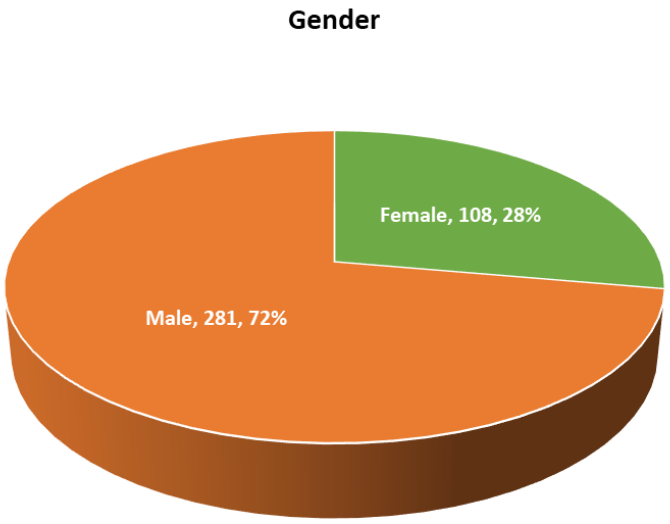

Chart of City of Albany Job and Civil Service Exam Applicant by Ward – City Residents Only

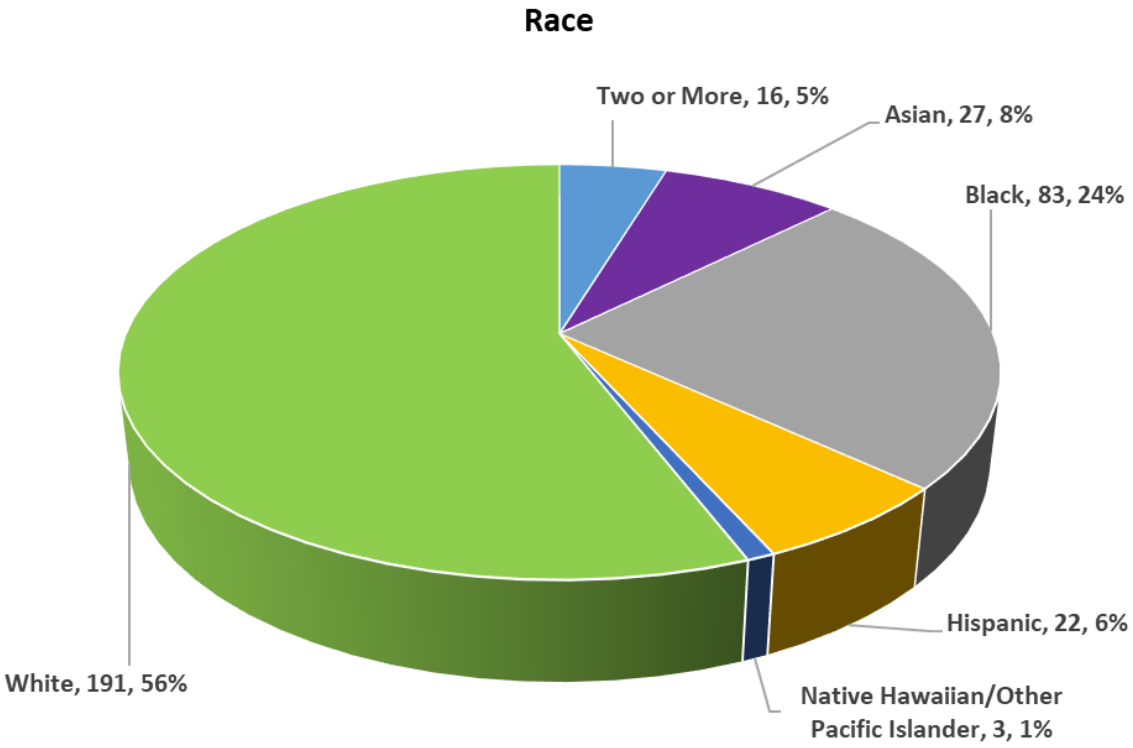

**Note: Some individuals applied to more than one job or live at the same address as another applicant. The chart above shows each unique address.*

Gender and Racial Breakdown of City of Albany Job and Civil Service Exam Applicants

When applying for a City of Albany job or civil service exam, an applicant is asked their gender and race. Applicants have the option to skip these questions if they choose. In 2021 a total of 389 applicants responded identifying their gender and 342 applicants responded identifying their race. Below is the breakdown of these applicants.

Map of Current City of Albany Employee Addresses by Ward – City Residents Only

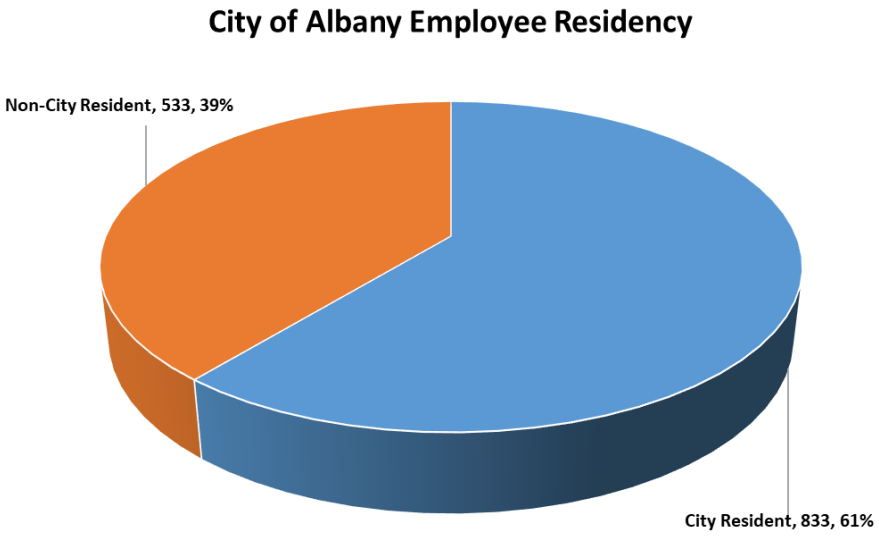

Chart of Current City of Albany Employee Addresses by Ward – City Residents Only

**Note: Some employees live at the same address. The above graph shows each unique address.*

Residency of City of Albany Employees

In 2015, the City enacted a residency requirement, requiring new applicants for employment to either live in the City or be willing to move to the City within 180 days of their start date. Employees of the City of Albany must also continue to reside in the City throughout their employment. Below is a chart that shows a breakdown of City employees that live in the City vs. outside the City. The chart includes active employees who are classified as full-time. Note: This requirement does not apply to employees hired prior to 2015.

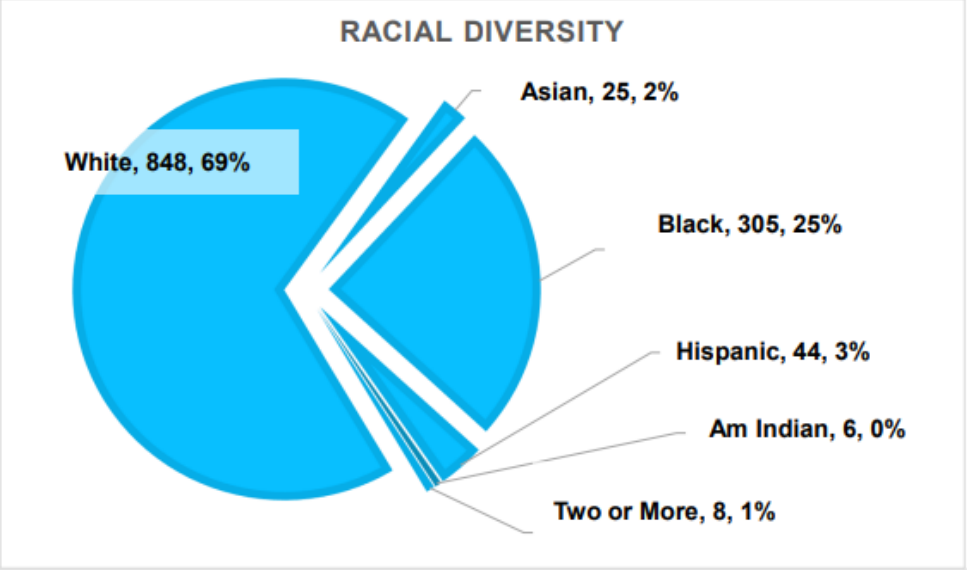

Job Fairs / Job Communication Efforts

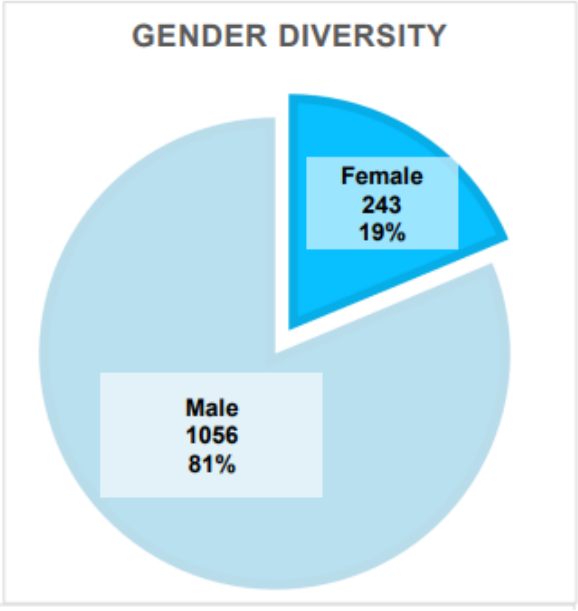

All City of Albany jobs and exams are posted on the City of Albany online jobs portal and Indeed. City job seekers can sign up for email alerts to notify them when job and exam opportunities are posted. In addition, the Office of Human Resources partners with the Albany Public Library to promote City jobs. The Department conducts trainings at local libraries on how to use the City's online jobs portal (linked above). In a typical year, staff from the Office of Human Resources attend various events throughout the City to keep residents informed about job opportunities. Unfortunately, due to the COVID-19 pandemic, in person outreach was limited in 2021. Below are the job fairs that the City participated in:

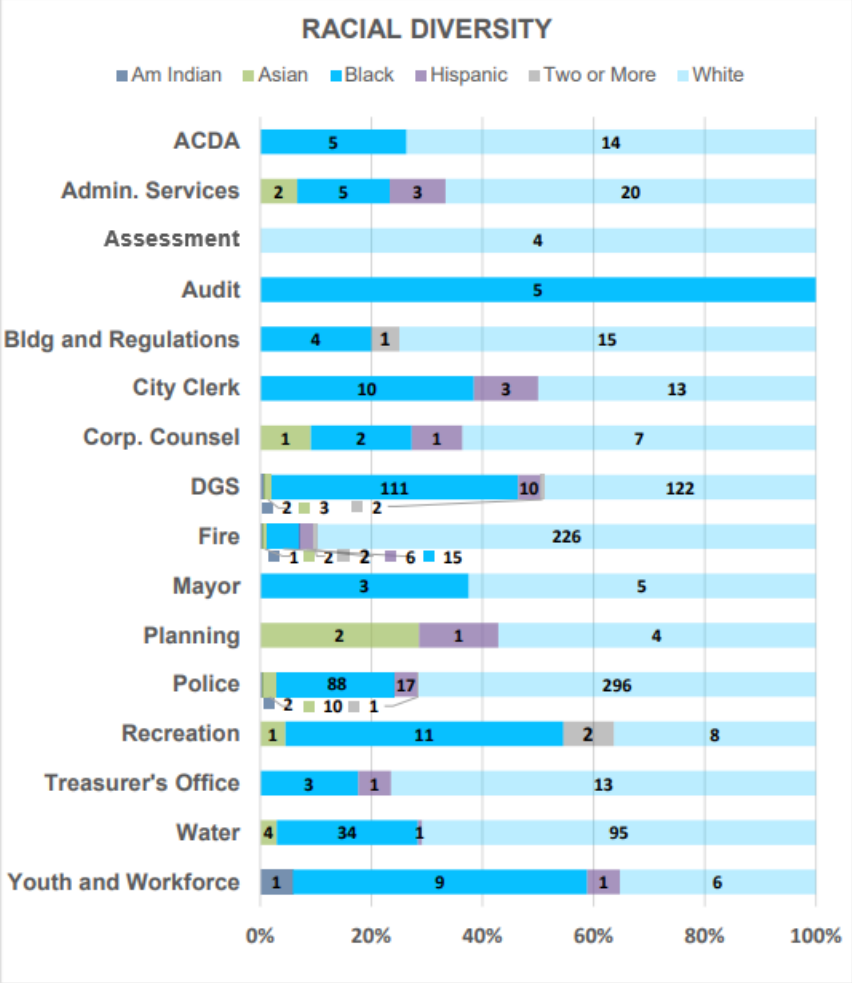

Event	Date	Location
UAlbany Education, Law Enforcement, Government, and Non-Profit Job and Internship Fair	March 24	Virtual
Dr. King Career Fair – NYS Department of Labor	April 8	In Person

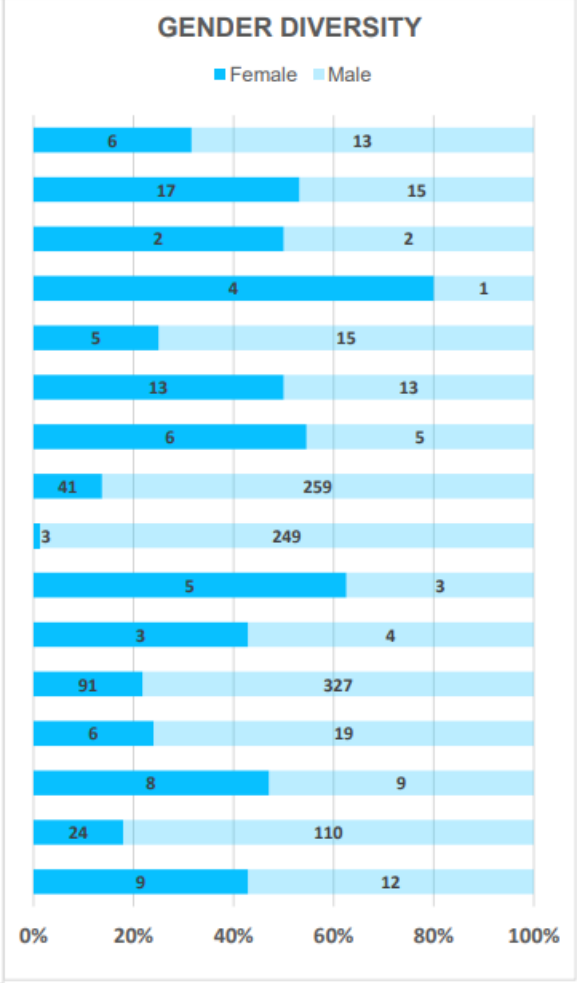

Employee EEO Data

Title VII of the Civil Rights Act as amended by the Equal Employment Opportunity Act of 1972 mandates all jurisdictions with fifteen or more employees to submit an EEO-4 report every two years. The report provides a summary of the jurisdiction's workforce composition by agency function, job category, salary, gender, and race and ethnicity. This data helps jurisdictions establish benchmarks and evaluate internal programs. The following charts utilize the data the City collects for the purposes of the EEO-4 report to show the breakdown of race and gender.

Education

Albany Housing Authority

The Albany Housing Authority has established an annual scholarship and laptop giveaway. This scholarship assists students with the financial expenses of pursuing higher education. The applicant must be a tenant/resident residing in rental property owned, affiliated with, or subsidized by the Albany Housing Authority. This includes public housing residents and section 8 participants. Recipients must be a senior in high school, presently enrolled as a full-time college student or a re-entry student pursuing academic, technical, or vocational training. Below is a chart that outlines prize amounts, age, and wards of recipients.

Prize	Scholarship Amount	Age	Ward
1st	$3,000	18	5
2nd	$2,000	32	2
3rd	$1,000	38	2

Staff Training on Racial Equity, Diversity, and Inclusion

Section § 183-4 of the Equity Agenda calls for all employees to receive annual training on racial equity, diversity and inclusion. Employees in the Fire Department were required to watch "Cultural Diversity for EMS Providers" through the Target Solutions Training Platform. All other employees were required to watch "How To Speak Up Against Racism At Work" through the LinkedIn Learning Training Platform. **See Appendix 6 – Staff Training on Racial Equity** Identifying information such as name and employee ID have been removed for confidentiality.
