

# **Manning Boulevard Project Update**

## **August 2025**

Over the next few weeks, the following construction activity will be taking place:

- New Castle Paving will be continuing to replace the lead services on the carriage roads.
- Beginning next week, the pavement will be milled off the west side carriage road.
- The installation of new storm water improvements will continue along the main line.
- Sidewalk installation will continue
- Curb installation will begin along the west side of the main line. During the installation there may be periodic outages of the street lights on the west side due to conflicts with the lighting wiring. This will be for the west side only. The east side will continue to be illuminated.
- Restoration of the pavement on the west side carriage road will be completed.

Be sure to check back for future updates.
