The Common Council values transparency and is dedicated to continuing governance during the re-opening of New York State. We are examining the best ways to ensure our meetings are available and we can hear from the public while minimizing the spread of COVID19. We also recognize and appreciate the efforts of Albany County Executive Dan McCoy, and county departments for the work they are doing on behalf of the public health and our communities. We will continue to partner with state and local officials and community leaders to ensure the health, safety, and well-being of our constituents are a top priority.
