## 2021 First Quarter Arrests and Diversions

May 7, 2021

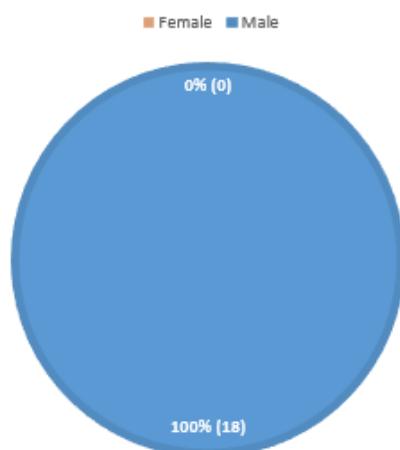

The following document presents an analysis of LEAD diversions and arrests in January, February, and March of 2021; this data is extracted from the APD Record Management System and LEAD documentation.

Charts 1a shows the total number of LEAD diversions (18), by race and gender, made by the Albany Police Department in the first quarter of 2021. Additionally, charts 1b shows the total number of arrests (495), by race and gender, excluding diversions made by the Albany Police Department in 2021.

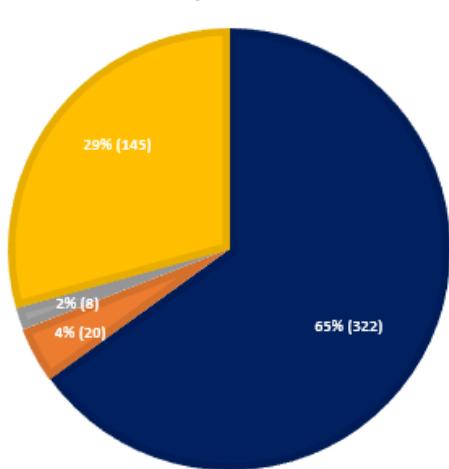

**1A LEAD DIVERSIONS BY RACE**

**1A LEAD DIVERSIONS BY GENDER**

**1B ARRESTS BY RACE**

**1B ARRESTS BY GENDER**

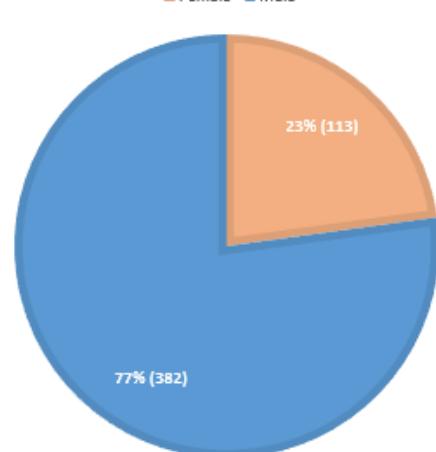

Table 1a shows the total number of LEAD diversions, average age, made by the Albany Police Department in the first quarter of 2021. Table 1b shows the total number of arrests, average age, excluding diversions made by the Albany Police Department during the aforementioned time frame.

Table 3a shows the racial/ethnic breakdown of APD's LEAD ineligible quarterly arrests and the reason the officer selected for non-diversion. Table 3b shows the racial/ethnic breakdown of APD's LEAD eligible quarterly arrests and the reason the officer selected non-diversion. Please see Data Report Appendix for further information.

Note: The officers' selection of 'reason for non-diversion' may not statistically align with the above tables due to there being multiple reasons for non-diversion. This information should be used for broad interpretation purposes only.
