CONTRACTOR'S PHONE LIST

At the request of many of our customers, this list has been compiled to assist in locating contractors who make repairs on water and sewer lines. This list should be considered as a partial listing and by no means all-inclusive. The Albany Water Department does not endorse or recommend any of these contractors but is providing this list as a service to assist our customers. Please do not limit your search to this list only. We encourage customers to look in the yellow pages or complete an internet search under "Plumbing" and/or "Excavating" for as many options as possible, or speak with friends and neighbors who may have had similar work performed on their property. The Albany Water Department suggests customers receive at least two quotes for all work.
